THE NEW PREMIUM CARTRIDGE
BY KINGPIN

"Very aggressive groupings. It's a nice cart shader you can actually do work with."

In order to do good work, you need the best tools. I’ve been using Kingpin for a few years now, and I’ve never been disappointed. Their liner needles are dreamy. I’m a big fan of big, solid lines.

-Dannii G
@dannii_ltp13

For more than 20 years, Kingpin Pre-Made Needles have been built by hand using textured 316L surgical stainless steel pins that offer lasting skin penetration with superior ink retention, and a lab-certified lead free silver bearing solder for maximum safety.

Setting the gold standard for Pre-Made Needles since 1996.

Crown and Scepter Cartridges by Kingpin offer ink flow, consistency, and performance unlike any other cartridge out there. Featuring our signature textured needles and configurations, Crown and Scepter Cartridges are designed with more than two decades of needle crafting experience to achieve the gold standard that you’ve come to expect from Kingpin.

Crown Cartridges utilize a membrane system, providing protection against ink backflow and firm needle stability.

Scepter Cartridges utilize a rubber band system that offers total stability and needles that remain flush to the tip in every tattoo.

Your search for a superior needle cartridge ends here.

“In a time where the tools of the trade are becoming more precision based and are always at the cusp of next level tech, it’s exciting to see a company take that mindset and apply it to their needles as well. These new Crown Needle Cartridges should be the new standard for cartridge needle performance.”

Cheyenne Safety Cartridges are German-Engineered, premium needle cartridges from one of the forerunners in removable needle modules. Aptly named for its sterilization and design, the Safety Cartridge features a shelf-life of up to 5 years and an internal membrane system that prevents ink back flow. Each Cheyenne Safety Cartridge is inspected after assembly, providing tattooers performance that they can rely on.

"I have used disposable tubes for over half my career and kingpin oversized soft grip tubes still remain my go to, after trying lots of different disposable tubes over the course of time. Even after long sessions, or several tattoos in a day these are comfortable and reliable products that I support."

-TINE DEFIORE
@tinedefiore
Kingpin Disposable Tubes have been trusted by tattooers for their quality, comfort, and performance:

- Clear Lexan Plastic tip allows for easy clean-out and exceptional ink flow
- Precision diamond knurling creates a solid, secure grip
- Sturdy medical grade plastic tube offers minimal flexibility

Wrath Nexus is the premium disposable tube by TATsoul, ergonomically designed for comfort and performance. Wrath Nexus tubes are made from a soft, malleable material and molded directly on to the tube, minimizing vibration and providing superior comfort and control. A unique, ergonomic extended finger contour at the front of the Nexus grip provides improved control and comfort while allowing the artist to get closer to the skin. The improved semi-transparent tip design is made through precision injection molding for superior ink flow and maximum needle visibility.

TRUE GRIPS
True Grips are the industry’s first ever eco-friendly, disposable memory foam grip covers. Developed to provide a softer, larger diameter grip, True Grips fit over any 1” or 1 1/4” grip, comfortably widening the grip on the tube and minimizing damaging vibrations. True Grip’s non-slip texture retains grip with soaps, inks and ointments. All True Grips are individually packaged and EO gas sterilized.

25 Grips per box $26.99
(True Grip III - 18 Grips per box)
Red Rat Grip Covers are made using a high quality, non-porous, autoclave-safe rubber. The 1/2" thickness of the FAT RAT and the 1/4" thickness of the standard Red Rat covers will create a soft cushion between your hand and grip. Red Rat Grip Covers effectively absorb machine vibrations, creating less hand strain.

Available in black or red to fit 5/8", 3/4, or 1" grips.

RED Tattoo Stencil Paper is the first ever thermal-ready red tattoo stencil paper, representing a major change for tattooing. RED Stencil Paper features a colorant that, when used in tandem with RED Transfer Gel and RED Tattooing Gel, binds to the skin. This results in stencils that are extremely durable. Able to function as both a thermal and a freehand paper, RED Stencil Paper’s innovative blend of waxes, colorants, and paper stuffs is the first patent pending stencil paper in the tattoo industry. RED Stencil Paper is proudly made in the United States, vegan friendly, never tested on animals, and safe for use on all skin types.
